Dear Mrs Gruber

I write to add my support and encouragement for the work the Sonshine Club do.

I have been aware for some time that there is a desperate need within the Orthodox Jewish community for an organisation such as yours to provide the facilities that it does for those who need them.

A number of my patients are beneficiaries of the work and activities of the Sonshine Club and it is a delight to see how much they enjoy themselves and how much good it does for them individually to boost their confidence and utilise their talent.

I herby support your current grant application and I genuinely hope that it is successful so as to enable you to continue and develop the much needed work that the Sonshine Club does.
