To whom it may concern,

This is a letter to confirm Chaya Gruber has assisted in the running of the 'Motor Skills Group' alongside Occupational therapists and Physiotherapists. The Group is available to children who have motor planning difficulties or mild delay on gross and fine motor activities.

Chaya has demonstrated her leadership and team working skills when working as part of a team with the children and therapists. She works hard to help the children engage with the activities through; behaviour management, providing children 1:1 support when needed, and helping to arrange the room/activity.

Chaya has been instrumental in bridging the gap of social diversity and helping both the children and therapists understand each other whilst maintaining a respectful environment. She has always showed an interest in how to help the children help themselves. Chaya has started to understand the role of OT in relation to activities of daily living and skill acquisition. I believe she will make a good therapist and help to continue to develop culturally sensitive services in the future.

Your sincerely

Una Dillon

Spec. Children's Occupational Therapist
